

Chairman Sean "Sully" Thomas  
Jersey City Democratic Organization

April 3, 2017

Dear Chairman:

We have recently read in the press that Mayor Fulop intends to use JCDO funds for his re-election campaign and we are adamantly opposed to this. This is a non-partisan election and Mayor Fulop has not proven himself to be a real Democrat.

It has been documented that Steve Fulop promised to endorse Chris Christie for Governor in exchange for favors for his secret client that owed the public millions of dollars. Although Fulop reneged on this promise, he refused to endorse Barbara Buono by name.

It has also recently come to light that Steve Fulop's SuperPac received a \$100,000 secret contribution from Donald Trump's close adviser and son-in-law Jared Kushner, while Kushner was simultaneously negotiating a multi million dollar tax break from Jersey City.

Moreover, we have heard that the funds may have been expended without your authorization. We request to see copies of the By-Law because money should not be spent without the Chairman's blessing.

All of these actions should be concerning to the Jersey City Democratic Committee. In short, we do not want JCDO dollars spent on a nonpartisan election and certainly not on a Republican sympathizer like Steve Fulop.
