Re: USE OF HCST FACILITY

Mr. Dixon:

Please be advised that this firm is General Counsel to the Hudson County Schools of Technology. I have been forwarded your letter of October 2, 2017 referencing the use of the "Explore 2000 Middle School, Jersey City" for campaign purposes.

You request specifically the names of such persons who granted authorization for the use of the property. We have canvassed our administrator's at the school as well as our administration resident in North Bergen and have determined that no one ever authorized the use of the school as referenced in your letter. Please be further advised that the Hudson County Schools of Technology Board of Education was neither petitioned nor approved the use of such facilities.

You can be assured that we will continue to investigate the allegations made in your letter and will supplement our response if further information becomes available.

Very truly yours,

John R Dineen
JRD/NTM
