RE: Proposed Loading Zone

Members of the Hoboken Planning Board:

The City of Hoboken Department of Transportation & Planning has contacted the County Engineer's office regarding the inclusion of a loading zone on 14th Street at the intersection of Hudson Street. There are currently no loading zones on this block. There is demand for one, as there are several businesses on this and the adjacent blocks that could benefit from the addition of a loading zone.

The County of Hudson Engineering Department is in agreement with the assessment and recommendation of the City of Hoboken's Department of Transportation & Planning that a loading space be designated at the southwest corner of 14th and Hudson Streets to serve the commercial uses in that area.

We have worked with the City Administration in the past to add loading zones in Hoboken, the County just approved them on Garden Street, Hudson Street and Newark Street. Upon receipt of the Hoboken ordinance setting up this loading zone, we will recommend introduction of a consenting ordinance for the approval of the County Commissioners.

Should you have any questions or comments, do not hesitate to contact this office at 201-369-4340.

Sincerely,

Thomas Malavasi, P.E., P.P., C.M.E., C.P.W.M.
County Engineer
